Food safety is of paramount importance. Food poisoning and contamination incidents have caused the recall of products and even in some cases the death of consumers. With rapidly growing expectations from regulators, consumers, and retail outlets, companies must be more proactive in their approach to food safety practices. Food safety is of critical importance when working at any stage of the food supply chain to protect consumers, meet customer requirements, and to safeguard your brand.

BRCGS is an internationally recognized standard for food manufacturers aimed at assisting them in producing safe, quality products. By implementing this Standard, you will have established a recognized system to assist in the avoidance of recall, incorporate elements of "Due Diligence" defence, and ultimately your company will be registered in a database used by many global retailers to evaluate suppliers for future business opportunities.

We are BRCGS recognized to carryout a full scope of audits for Food Safety, Issue 8 and Issue 9.

Our Service

LSQA Middle East can work in partnership with you to ensure your company reaches the high level of competency in food safety and the BRC demands. With our help and support your organization can become certified and publicly recognized for your concern and attention to Food Quality, Legality and Safety.

In January 2019 Issue 8 was released and provides 33000 certifications to sites in over 130 countries. In August 2022, Issue 9 was released. We will work with you addressing the new Issue 9 requirements in each of the key areas:

- Senior Management Commitment
- The Food Safety Management System – HACCP
- Food Safety and Quality Management System
- Site Standards
- Product Control
- Process Control
- Personnel
- High-risk, high-care and ambient high-care production risk zones
- Requirements for traded products

Benefiting You

BRCGS is an internationally recognized standard for the manufacture of food products and also Global Food Safety Initiative (GFSI) recognized.

- Promotes Food Safety and Quality
- Safeguards your brand's reputation
- Installs customer confidence
- Reduces the need for multiple audits
- Pro-actively improves processes saving you valuable time and resources
- Encompasses all levels of the manufacturing food chain
- Worldwide recognised certification program

With You All The Way

We are also a BRCGS approved Training establishment and conduct various training courses across the globe, including:

- Third party auditor training "How to Implement The Standard
- Implementation of the Food Standard to your business
- Upgrading of the standard from Issue 8 to Issue 9 into your business operations seamlessly .

At LSQA Middle East our experts can provide you with a wide range of both physical and analytical testing as well as certification services to meet your ever-changing needs.

We can also offer bundled food audits to save you both time and money within your supply chain.
